SUMMARY

Seasoned QA Engineer with expertise in manual, automated testing with Selenium-Python, Pytest, Api testing. Skilled in implementing QA and testing strategies, designing tests and testing web-based applications across the full-stack. Ambitious to utilize my knowledge to work with the development team to enhance & ensure superior software quality. Experienced in Agile methodologies, capable of adapting seamlessly to diverse project environments for successful outcomes.

EXPERIENCE

Jr. QA Engineer

TECHADEMY Learning Solutions

📅 08/2023 - Present 📍 PUNE, IN

Integrated Learning Experience Solutions

- Performed manual and automated testing, Created and executed Test for web applications resulting in a 30% reduction in regression testing time.
- Part of QA/testing team to support business growth and projects Worked closely with development & business team to ensure high-quality software delivery, responsible for give Sign off for build to Production Environment.
- Identified and reported defects and tracked them to closure.
- Probing complex workflows to unveil system vulnerabilities affecting performance and security.

PROJECTS

AEYE (AI Based Proctoring Software) Current project.

Understand AI Algorithm to make sure there are no potential violations of rules in AI based software.

Testing Various roles and Flows for Human Proctoring in Assessment.

YAKSHA(EdTech)

Performed Smoke and Sanity on builds ensured stable build.

Developed End to End test cases for Various flow and roles.

Filed Functionality bugs using JIRA followed Agile Method.

Involved with business team, Dev team and Project Head to improve Product.

Techademy Campus(EdTech)

Developed End to End test cases for Various flow. Performed Sanity and Regression testing.

Performed Api Testing Using Postman.

TECHNICAL SKILLS

Automation Testing

Selenium

TestNG

Pytest

TDD

Git

Maven

Jenkins

Web Application Testing

Test Planning

Agile Methodology

AI Based testing

API Testing

STRENGTHS

Test Automation

Designed and implemented automated basic test scripts resulting in reduction in testing time

Problem Solving

Identified and resolved critical issues in a timely manner, reducing bug count in 3 months

Team Collaboration

EDUCATION

Engineering

Bikaner Technical University

📅 05/2019 - 10/2022

📍 Rajasthan, IN

GPA

8.5 / 10

CERTIFICATION

Advance Certification In Software Testing(Manual Automation) 85 %

Edubridge Learning ,India

Learned Manual Testing and Automation concepts in depth, MySQL.

HandOn Project where performed Automation on Car Dekho website, Using JAVA - selenium, Action class, waits, Assertion, screenshots, Core java concepts and test reports.
